RE: Letter of thanks and recommendation

Dear Joseph, I wanted to draft a quick note thanking you for your service during our pool construction project. Despite logistical hurdles, you and your team were able to successfully complete your massive grading and sod replacement job at the club on time and on budget. I must admit I shared the member's angst creating an access road along our field to make way for construction. Our 'sacred cricket field' is such a focus of sport and history here, but you turned this apprehension back into pride and happiness when we all saw your promised results. Any contractor that saves me grief as opposed to giving it will be recommended to my fraternity!

The other area of our success was your creative approach to restoration of the lawn bowling ditch boards. Your cost effective solution of substituting traditional tiebacks with tied posts was the best solution for this subterranean utility intensive area. Coupled with the surrounding interlock work, this really made us look good and has served the members well.

As our preferred vendor I will be calling on you again for more work at the Toronto Cricket Skating and Curling Club. By way of this letter please welcome your prospective clients to call me for a referral.

Thanks again,
Regards,

Steve Pataki
